

AUTOMATIC LABEL CUTTING&FOLDING MACHINE

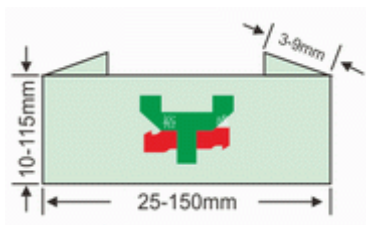

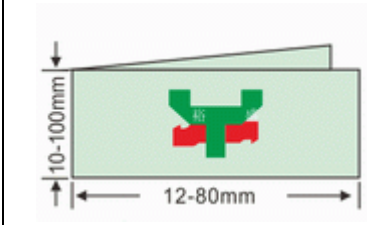

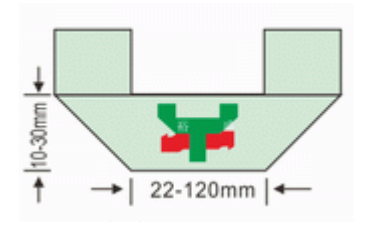

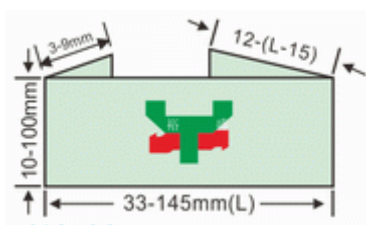

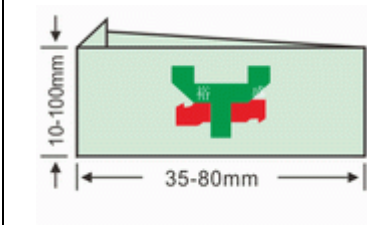

(Super and big size multi-function)

Model: YS-4000

Charactors:

- It can be cutting & folding belt materials such as woven label, satin ribbon tape, cloth tape, adhesive tape and etc.
- Cutting method can be hot or cold cut. Ultrasonic cutting is optional.
- It is suitable for end fold, dissymmetry fold, centre fold, envelop fold and piece cut.
- Machine is easy to operate and has superb performance. It is designed especially for with soft labels
- Fast and smooth operate, speed adjustable
- Equipped with a photo electronic fault eliminator that can reduce defective cutting and folding to the lowest possible.
- Easy to change /adjust tooling according to requirements.

Technical parameters:

Working speed	0~200 /min	
Electric Power	2.4kw	
	Voltage	220V, 50Hz or 60Hz
Gross weight	450kgs	
Dimension	L X W X H=148x108x145cm	
Suitable label belt range		
		
End fold	Centre fold	Mitre fold
		
Dissymmetry fold	Manhattan fold
